

Support distance learning with complimentary access to SMART Learning Suite Online

For the dedicated teachers and students currently or potentially affected by the coronavirus outbreak, we're here to support your distance learning for the rest of the school year.

SMART Learning Suite Online for Distance Learning

SMART Learning Suite Online enables students to connect remotely to live lessons delivered by teachers and engage in real-time with lesson activities.

Cloud-based classrooms powered by **SMART Learning Suite Online** easily enable student collaboration on devices anywhere, anytime breaking down the barriers of distance learning with:

Complimentary access
[smarttech.com/
slsanywhere](https://smarttech.com/slsanywhere)

Flexible lesson delivery

- Share lessons to student devices to enable a variety of virtual delivery methods – whole class, small group, project-based, individual and collaborative.
- Flexibility during lesson delivery to go from teacher-paced to student-paced anytime.
- Students can review and complete activities collaboratively or independently at their own pace.

More than just participation – true virtual collaboration

- Collaborative Workspace activities empower students to work together from home on a shared digital canvas to co-create, add content and problem solve.
- Shout It Out activities enable students to send text and images from their devices to a lesson. Teachers can then rearrange, organize, and discuss contributions.

Precise virtual gauging of student understanding

- Support individual learning needs with clear insights into student work from individual handouts, activities and collaborative workspaces to monitor progress and fine tune instruction.
- Engage students with a variety of assessment types including multiple choice, short answer and true/false questions.
- Students can see their individual results on their devices.

Google and Microsoft® Integration

- SMART Learning Suite works with existing technology, familiar platforms and workflows including Google and Microsoft.
- Students can use their existing Google or Microsoft accounts to access content and continue learning from home.
