# Datasheet

#### NEC MultiSync <sup>®</sup> E705 SST - One display fits all - The Next Generation Digital Interactive Whiteboard

Seamless operation of presentation systems and whiteboards is essential to achieving productivity, allowing you to concentrate on business and not on technology. The 70" eye-pleasing multi-touch-display with 400 cd/m<sup>2</sup> brightness offers the ideal digital canvas to facilitate creative and efficient collaboration in smaller-sized corporate meeting rooms or classrooms. ShadowSense™ technology with 10 real-time touch points, allows several people to interact in parallel which leads to much more efficient working results. Bundle the display with a Windows-based OPS Slot-in-PC for a simple and seamless solution.

With DisplayNote NEC Edition whiteboard toolbox software included, up to 20 attendees can collaborate using their own devices.

#### **Benefits**

**Ease of Use** – enhance the display with an optional "Windows based" Slot-in-PC using the integrated Ultra High Resolution OPS option slot, thereby simplifying installations and reducing the points of failure.

Save Time and Work more Efficiently – ShadowSense<sup>™</sup> touch technology offers real-time collaboration in meetings, tracking all 10 touch points with the highest touch point accuracy.

**Reliability at High Ambient Light Operation** – enhanced filtering and special sensors allow operation even in the brightest ambient light conditions without causing ghost touches.

**Collaborative working** – connect your whiteboard and present, share and collaborate more efficiently with up to 20 participants across multiple devices with the included DisplayNote Multiuser Licence.
