NoteCart Flex Extended 24

NoteCart Flex 24 is a mobile storage and charging solution for 24 devices.

NoteCart Flex is a mobile, compact cabinet for storage and charging of iPads, tablets, laptops, Chromebooks and similar devices. The 4 wheels on the NoteCart Flex series have been carefully selected to complement the rest of the design so that NoteCart rolls easily, regardless of weight of the many devices and the type of floor under the mobile cabinet. Wheels with ball bearings and soft rubber coating which, in use, maintain and restores the rounding of the wheel.

During operation, all electronics are stored in the locked compartment behind the cabinet, so that only the IT manager has access to them. A secure cable management system ensures that the cables stay in the cabinet once they have been installed.
The main panel which divides power connectors into groups of 8, with sequential control with a 3 second time interval. This is to ensure unnecessary overloading when connected to the main switch.
